

## RoHS II Declaration – Certificate of Compliance

The RoHS II Directive 2011/65/EU restricts the use of certain substances including lead, mercury, cadmium, hexavalent chromium and halogenated flame retardants PBB and PBDE in electronic equipment.

**ADVANCED Motion Controls** hereby declares that all actively marketed products (and with few, requested exceptions modified and customs) including all of their containing parts and components contain less than RoHS limits stated below for the six restricted substances and are in conformity with the Directive 2011/65/EU (RoHS II) on restriction of the use of certain hazardous substances in electrical and electronic equipment.

This declaration is based on analysis, vendor supplied analysis of material certifications, supplier declarations in any means, and/or lab test results of the components raw material used in the manufacturing process of **ADVANCED Motion Controls** products.

This declaration of conformity is issued under the sole responsibility of the manufacture or installer.

Restricted substances refer to in Annex VI in the RoHS Directive 2011/65/EU and maximum concentration values tolerated by weight in homogeneous materials are:

Substance	Maximum concentration of the substance in any individual homogenous material in the part
Cadmium/cadmium compounds	0.01% in the material (100 ppm)
Hexavalent Chromium compounds	0.1% in the material (1,000 ppm)
Lead/lead compounds	0.1% in the material (1,000 ppm)
Mercury/mercury compounds	0.1% in the material (1,000 ppm)
Polybrominated Biphenyls (PBB)	0.1% in the material (1,000 ppm)
Polybrominated diphenylethers (PBDE)	0.1% in the material (1,000 ppm)

Regards,

ADVANCED Motion Controls  
Quality Assurance Team

Signed declarations of conformance for any specific product are available upon request.
